OUTSOURCING AND MANAGED SERVICES

Smart Code provides outsourcing and managed services solutions to help clients in operating their services. Our personnel can seamlessly integrate into existing client teams or take full responsibility for end-to-end operations and governance.

We boasts a workforce of over 200 employees engaged in outsourcing and managed services projects spanning more than 10 organizations, covering various fields of expertise and technologies.

We have a strong track record of working with various organizations, particularly in the banking sector, where we cover functions like sales, call centers, bank operations, customer services, investment, and credit. Additionally, we are providing resources through managed services to operate PMO Offices, Customer Services Offices, Demand Management Centers, Operations Centers and other services and such as IT/OT applications support SCADA, LIMS, GIs and others

ADVANCED SOLUTION SERVICES

Smart Code specializes in providing advanced solutions & services in the fields of:

- » Automation and Control – AVEVA Wonderware SCADA System, Control, and Instrumentation
- » IT services and solutions.
- » Geospatial Solutions
- » Laboratory Information Management System – Labware LIMS

Our expertise and strong partnerships in these systems allow us to provide comprehensive solutions to our clients.

Our services and solutions enable our clients to streamline their operations, enhance their management, and make informed decisions.

We play a crucial role in supporting industries that rely on these technologies to ensure smooth and efficient operation.

AUTOMATION & CONTROL DIVISION

The Automation Division specializes in advanced control technologies, focusing on SCADA systems and extensive applications in automation utilizing PLCs, HMIs, VFDs, soft starters, instrumentation, PLC panels, MCC panels, and power distribution boards. We also have expertise in various

industrial control systems, including:

- HVAC Industrial Control
- Sewage Treatment
- Oil and Gas
- Electrical Systems
- Water/Wastewater Treatment

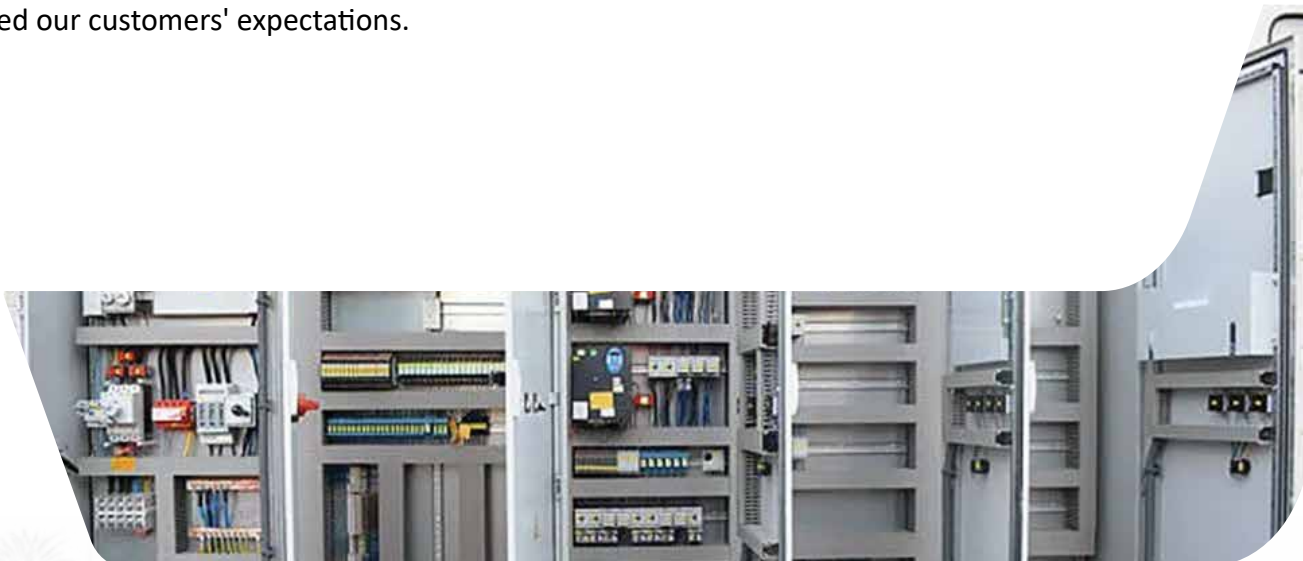

Our team consists of highly skilled technical engineers and trained technicians dedicated to meeting client needs. We are authorized system integrators for Allen Bradley products (Rockwell Software), Siemens (A&D) & Schneider Electric. Additionally, our expertise in SCADA software includes AVEVA Wonderware System for industrial applications.

Scope of Work

Our primary goal is to satisfy and surpass our customers' expectations. We begin by meeting with clients to understand their needs and analyze their requirements, allowing us to identify the best solutions at the most competitive costs. As the system integrator, we are the first to arrive on-site and the last to leave, ensuring our responsibility extends until the system is fully operational and implemented. We deliver technically superior services in the following areas:

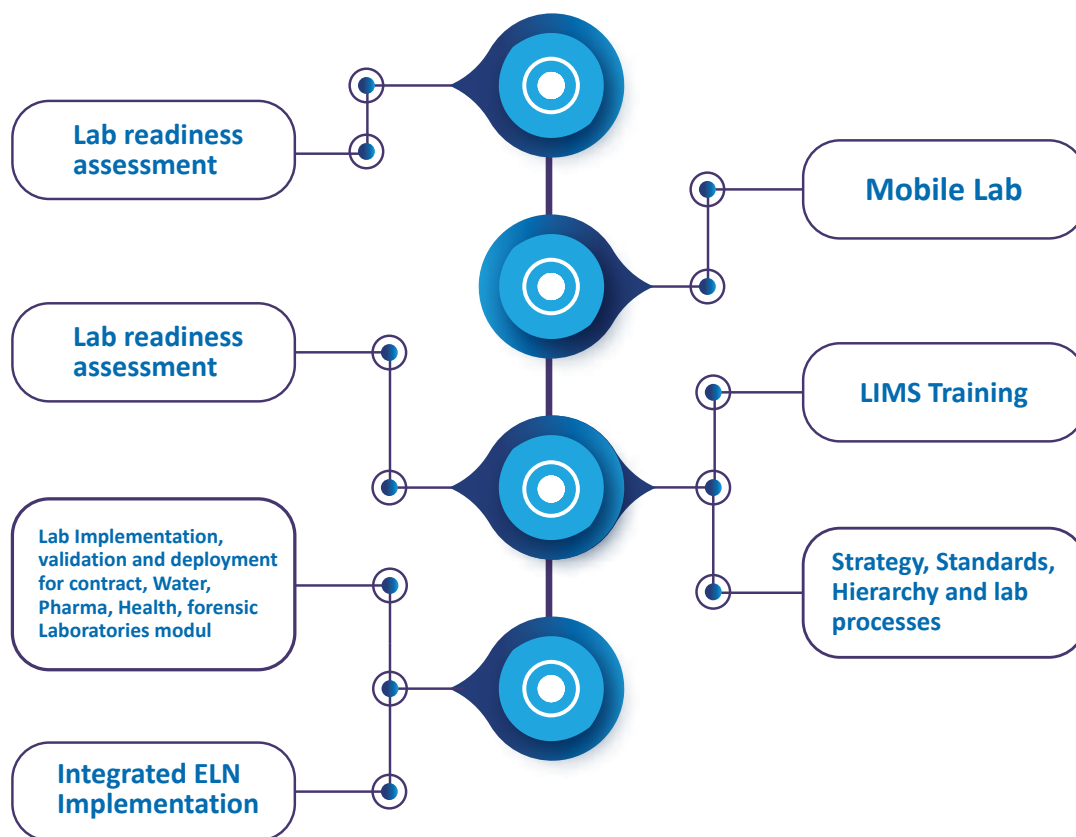

1. Design
2. System Integration
3. Commissioning
4. Training
5. Maintenance/Follow-up

Quality and partnership are the foundational principles of our department. Through our commitment to these values, we aim to leverage our experience and expertise to meet and exceed our customers' expectations.

LAB INFORMATION MANAGEMENT SYSTEM

We are providing Lab Information Management System – LIMS Services, we are labware Certified System Integrator

GEOSPATIAL SOLUTIONS & SERVICES

We are providing Geospatial Solutions and Services

- Geospatial Strategy, Standards, Procedures and Workflow
- Data Automation and QC.
- Survey – RTK, UAV, Mobile Mapping, and 3D Lidar Imaging
- GIS Applications – Desktop, Web, Portal, Operational Dashboards, Explorers, Field Mapping and Survey.
- Geospatial AI Municipal Application – Automatic Feature Extraction and Visual Pollution Solutions
- GIS Integration – WFM, BIM, AMS, CC&B, SCADA ...
- Data Automation and QC.
- Photogrammetry and Mapping, Tracking, Fleet management, Last Mile – LM, and Logistic Distribution Solutio
- Remote Sensing – Image Processing and Classification
- 365 Panoramic Imaging and Augmented Reality
- Geospatial AI Environmental Solutions from Satellite Images Soil Analysis and Pollution, Minerals, Carbon Credit

IT SERVICES

We provide IT solutions & services
Conference & Meeting Room Solution.

- › System Integration
- › Data Mining & Analysis
- › Business Analysis
- › Infrastructure
- › Meeting Room Solutions
- › Web and Mobile Development
- › SOC / OT Cyber Security

IT SERVICES

In today's digital world, cyber threats are a reality. Even with the best security systems, attackers can breach your defenses, leading to data loss, operational disruptions, and reputational damage.

Cyber Risk is preparation for an attack. It is not a guarantee of preventing breaches, but it helps you reduce the potential damage in the event of an attack.

CR includes identifying and assessing cyber risks, implementing controls to reduce their likelihood, and planning for a rapid and effective response in the event of an attack

protect you information & data with Smart Code.

AV & CONFERENCE ROOM SOLUTION

The system consists:

- › Sound System
- › Webcam
- › Interactive Screens and Monitoring
- › Control System (Touch Pad)
- › Scheduling Room System
